Yes he contacted me and said he thought that there was a bond being held by SITLA. I talked to Will Stokes and found that there was an old \$5000 surety placed with SITLA in 1983 or '84. Will had to spend some time to find it. He had prepared a letter to have that money transferred to DOGM, haven't seen anything from you to show that it has been received.

A portion of Mr. Glazer's site was reclaimed by Abandoned Mines several years ago. There are still a few old sheds sitting on the site but his disturbance is less than an acre, the \$5000 should cover it.

We just need him to modify his permit to show only an acre.

I'll contact him to get that taken care of.

Doug-

It has been 3 weeks since a letter was mailed to Mr. Jerry Glazier , he has taken no action that I am aware of. Has he contacted you?

The database shows 5 acres of disturbance, will you send him the template letter that indicates he has a surety requirement of 18600.00. The Dec 20 letter asked that he contact you.

Thanks,
Beth
